## Tactical Provisioning

## Core Provisioning

- Used by all schools

## Office 365

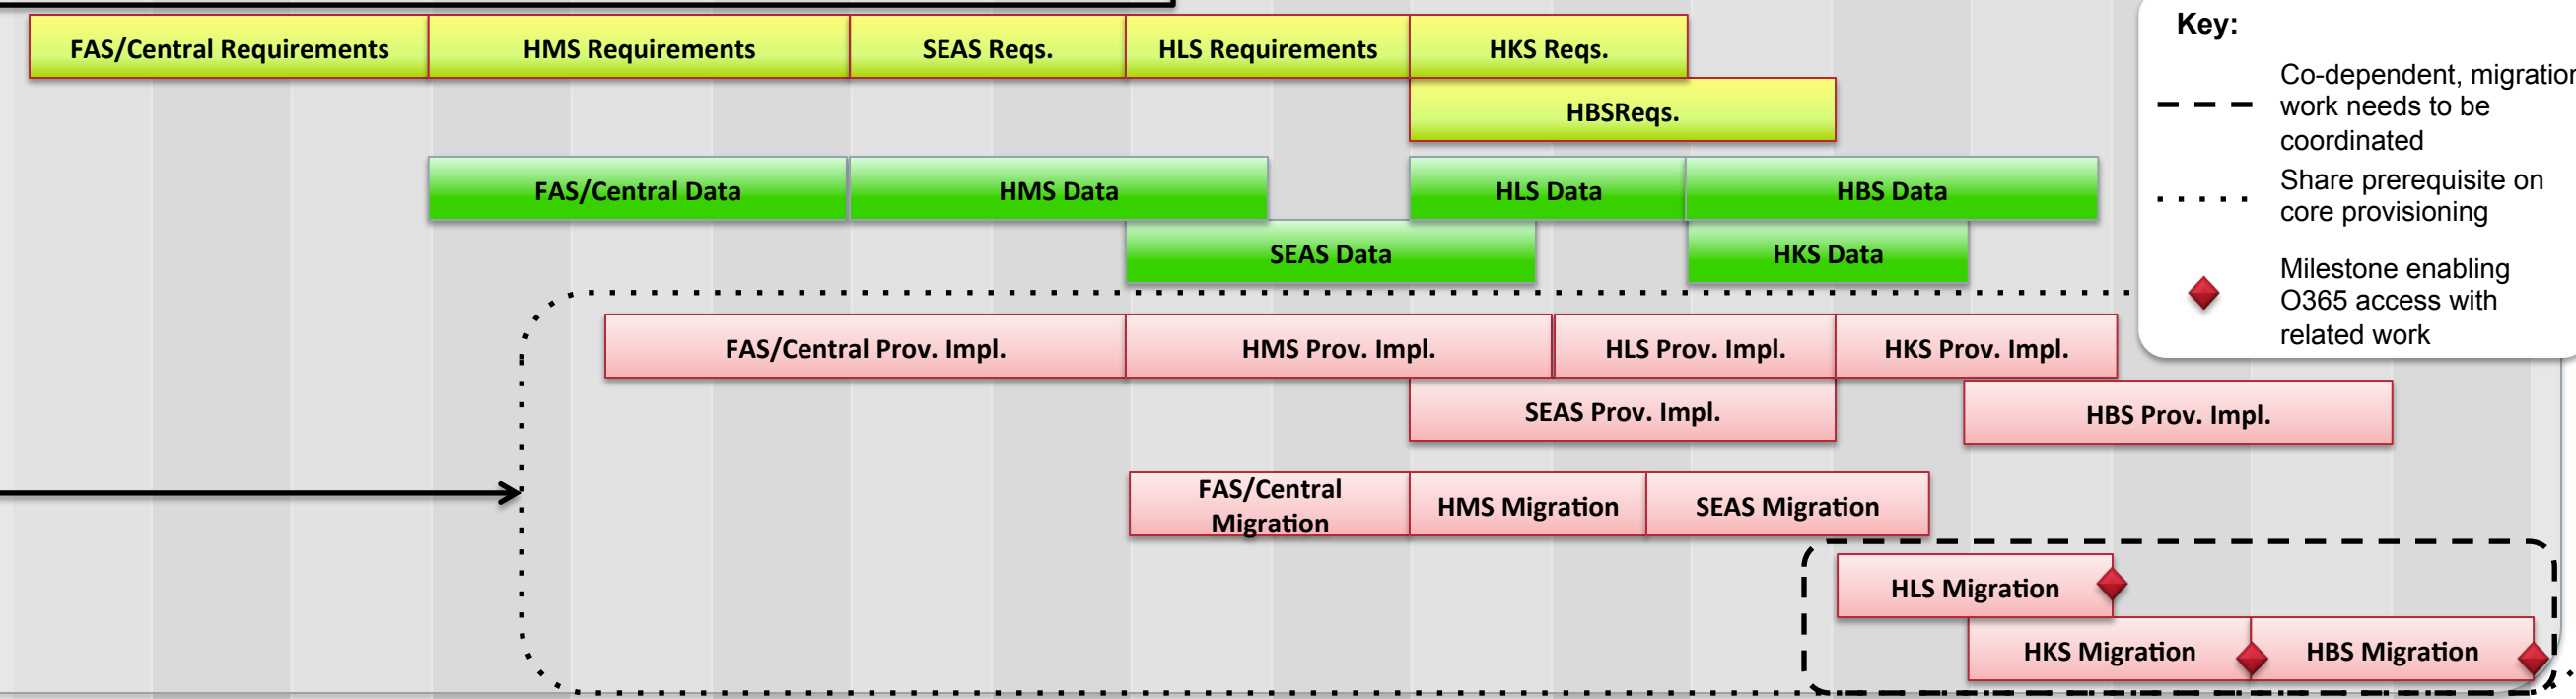

- Service specific work

## School Specific Provisioning

Each school would follow the same high-level steps:

- **Requirements.** Document local provisioning and process requirements.
- **Data.** Bring in local data into central solution.
- **Implementation.** Implement defined requirements into SailPoint.
- **Migrate.** Migrate local users into SailPoint and switch local support process.

**Key:**

- - - Co-dependent, migration work needs to be coordinated
- ..... Share prerequisite on core provisioning
- ◆ Milestone enabling O365 access with related work

## Benefits
