A short name to describe the work
The business value is to be described for each work item. It is a concise, clear statement of what the work item is expected to achieve.

Value Statement
The value statement describes the business value of the work item. It should be clear, concise, and specific, explaining how the work item will deliver value to the organization.

Communication Plan
The communication plan outlines how the work item will be communicated to stakeholders. It includes details about who should be informed, how often, and the specific messages that will be shared.

Scope of Work
The scope of work defines the specific tasks that need to be completed to achieve the business value. It should be detailed and specific, outlining the deliverables and milestones.

Due Date
The due date specifies the expected completion time for the work item. It helps ensure accountability and alignment with overall project timelines.

Status
The status indicates the current progress of the work item. Common statuses include In Progress, Complete, and In Progress.

Primary Customer
The primary customer is the individual or department responsible for the business value of the work item. It helps clarify ownership and accountability.

Work Streams
Work streams are the subcategories or areas within the project that are focused on specific aspects of the work. They help organize and manage the project.

Stakeholders
Stakeholders are the individuals, teams, or groups affected by or interested in the work item. Identifying stakeholders helps ensure their needs are considered and their contributions are valued.

Notes
Notes provide additional information or context about the work item. They may include details about dependencies, risks, or other relevant factors.
## Q1 Posture

### 20. Custom
